

"Our son Alex started working with Jeff when he was in 8th grade and has been the starting quarterback at Chicago Christian for the last two years. It is one thing to "be" a great quarterback. It is completely different to be able to "teach" someone how to be a great quarterback. Jeff knows how to relate to the kids and pin point the level that they are at and help them to reach their maximum potential. Jeff works the kids hard and challenges them. The kids have a great time and can't wait till the next session. If you have ever watched one of Jeff's sessions, you will see a lot of smiles and hear lots of laughter. Alex has met many wonderful football players while working with Jeff and has built great friendships along the way.

Alex is now a Jr. in High School and is receiving steady mail and contacts from many different colleges, from D-III to D-1. This did not happen by accident. Alex spent many hours and throws working with Jeff to get where he is today. Now that we have reached this level Jeff has been great with helping us understand what all the recruiting mail "really" means vs. what we "think" it means. The journey has not ended. Alex will be a Senior this year and will continue working with Jeff at the next level.

Jeff is the real deal - He knows it - He can teach it - and it's the kids that prove it!
