Throw It Deep

Attn: Jeff Christensen

Subject: Bryce Corrigan

Dear Mr. Christensen:

I would like to take this opportunity to thank you for your efforts through Throw It Deep. Bryce started working with you in the summer of 2006 prior to his freshman year of football. He had some previous success with the Plainfield Junior Cat program; Tri-County league runner up and runner up at the 2005 National Football Championships in Florida. Bryce is a hard working individual and takes winning and losing personal. He shows signs of being mentally tough, which in my opinion is a trait of a great quarterback.

As a father we want to provide our kids with the best opportunities possible without going over the top and keeping the game fun. You have provided this opportunity with your teaching techniques and technical knowledge. Bryce has been coached by a lot of different individuals; you however have been one of two coaches (the other a baseball coach) that Bryce has come to me and said he really likes and understands what you are teaching. The connection Bryce has made is one that does not happen everyday with a teenager. I truly believe your honesty, communication skills, and credibility make the Throw It Deep system one of a kind.

Mr. Christensen you have also taught me as a parent not to “over do it”, “let the kids have fun”, something that is lost in youth sports today. From the time Bryce starting throwing with you in 2006 to now, I can see the improvements in his accuracy and throwing technique. Having the older students at the workouts gives me as a parent and Bryce as the student examples of what you can do with an individual at the Quarterback position. It was amazing to see in the Illinois State Football Playoffs the different quarterbacks that are part of Throw It Deep. Not every system throws the ball, but when they have to the Throw It Deep quarterbacks were able to perform. The repetitions paid off for a few of them with a State Championship.

Bryce may not be the quickest quarterback to lace up the shoes, but with your instruction I believe his arm strength, throwing technique, mental toughness, and readiness will enable him to compete at a high level. I believe Throw It Deep provides an individual the best opportunity to succeed at the quarterback position. I believe it gives young athletes a once in a lifetime chance to play at the higher levels.

We look forward in continuing to work with you and Throw It Deep.

Sincerely,

Kurtis R. Corrigan, PE
